Progress Towards Meeting District Goals

2002-03 Goals	Progress
Form leadership teams to establish curriculum that meets required educational standards	Curriculum team leaders are being assigned to analyze curriculum to assure educational standards are being met in each grade level
Creating standards based report cards	Administration and staff are meeting weekly to create standard based report cards
Collect and analyze data to determine current status and set learning objectives	Curriculum team leaders and administrators are analyzing current data to determine our status and are setting learning objectives for each grade level
Implement grade level teaming	2 hours per week is set-aside for teachers in grades k-8 to meet as grade level teams. 2 hours each month is set-aside for high school teachers to meet as teams. Working to have whole district meet weekly
Verify instructional alignment with classroom instruction and across grade level	Every teacher will be provided the state standards and a copy of how our district curriculum meets those standards. Classroom lesson plans will be developed to meet the state standards in all core subject areas and benchmarks will be set as to when that subject matter will be taught.
Utilize technology to enhance learning and store student data	We have numerous ways of storing student data. Currently we are using the MAPS test to identify student progress, and Teach Master to align curriculum and store student data.

Idaho Standards Achievement Tests (ISAT) Spring 2003

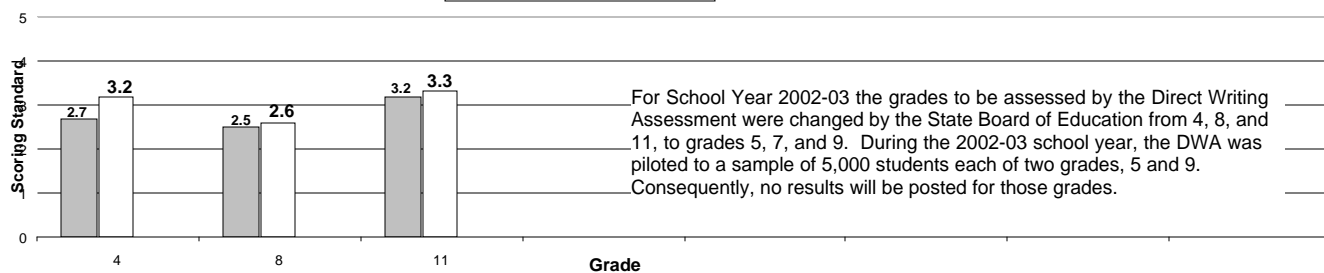

■ Reading □ Mathematics ■ Language

In order to meet the terms of the compliance agreement with the U.S. Department of Education and the requirements of No Child Left Behind, the 2003 Spring ISAT administration assessed students in grades 4, 8, and 10, in the areas of reading, language arts, and mathematics. Additional grade levels will be assessed in each of the next two years in order to be in complete compliance by 2005.

Direct Writing Assessment

■ 2000-01 □ 2001-02

For School Year 2002-03 the grades to be assessed by the Direct Writing Assessment were changed by the State Board of Education from 4, 8, and 11, to grades 5, 7, and 9. During the 2002-03 school year, the DWA was piloted to a sample of 5,000 students each of two grades, 5 and 9. Consequently, no results will be posted for those grades.

Direct Math Assessment

■ 2000-01 □ 2001-02 ■ 2002-03

In School Year 2002-03 grade six was added to the grades assessed by the Direct Math Assessment. Sixth grade was handled as a pilot of approximately 5000 students. Results are reported for grades 4 and 8 but not for the pilot in grade 6.
